EDUCATION

Colegio de San Juan de Letran - Calamba (2019 - 2023)

- **BS Computer Science**
- **Thesis:** Facial Recognition for Attendance-Checking and Eye-Tracking to Determine the Student's Attention During Online Class Using Mask Region-Based Convolutional Neural Network Algorithm

EDCEL JEREMY MACAWILI

FRONT-END WEB DEVELOPER

PROFESSIONAL EXPERIENCE

DottyStyle Creative Inc. (March 2024 - Present)

Front-end Web Developer

- Develop and maintain scalable, high-performance web applications using modern front-end technologies.
- Implement responsive, cross-browser-compatible, and accessible UI designs, ensuring a consistent user experience across devices and screen sizes.
- Collaborate closely with UI/UX designers, back-end developers, and project managers to translate requirements into robust and efficient front-end solutions.
- Optimize website performance by implementing best practices in coding, asset management, and browser rendering.
- Troubleshoot and resolve front-end issues, ensuring smooth operation and minimal downtime.
- Stay up-to-date with emerging web technologies and industry trends to enhance development processes and improve efficiency.

Straight Login, Inc. (August 2023 - March 2024)

Junior Web Developer

- Assisted in the development and maintenance of web applications, ensuring clean, efficient, and maintainable code.
- Worked closely with senior developers to implement new features and improve existing functionality.
- Conducted regular testing and debugging to identify and resolve performance bottlenecks and UI inconsistencies.
- Maintained and updated websites, ensuring compatibility with modern browsers and adherence to web standards.
- Gained hands-on experience in both front-end and back-end development, enhancing technical proficiency and problem-solving skills.

PROJECTS

Personal Web Portfolio

To view a list of my professional projects, visit my portfolio. It features selected front-end development work focused on responsive design, interactive animations, and performance optimization using modern technologies.

The site is continuously being updated, and a full revamp is currently in the works
